

# PANEEM USER GUIDE

PANEEM makes registering for Claims Conference compensation programs easier.

Paneem is used for both proof of identity and proof of life. You can now verify your identity from the comfort of your home instead of requesting a life certificate, certifying it and then sending the paper to the Claims Conference for verification.

Paneem will help you verify your identity quicker so you can **receive your payment faster.**

## PLEASE HAVE THE FOLLOWING ITEMS READY:

### **Claims Conference registration number and date of birth (month/date/year, e.g. December 1,1940 - enter 12/01/1940)**

Your registration number (7-digit number) and date of the birth we have on file can be found in the letter you received asking you to register PANEEM.

### **Government-issued photo identity document (an identity document can be a passport, driver license, naturalization certificate, state id)**

An identity document must contain your date of birth and can be used even if it is expired. The document must also be an original and not a photocopy.

### **Mobile phone, tablet or computer that is connected to the internet and has a camera**

**ALLOW THE USE OF  
YOUR CAMERA**

## TIPS

- Remove anything that hides your face, such as a hat/ glasses/ or a mask.
- Place your face inside the oval frame.
- PANEEM allows to flip the camera  from frontal to back camera, which can be used if someone else takes a picture of you.

# TAKING A PHOTO OF YOUR IDENTITY DOCUMENT

(Such as a driver license, passport or state ID)

**THIS STEP IS SKIPPED IF YOU  
REGISTERED SUCCESSFULLY FOR  
PANEEM IN THE PAST, GO TO P. 7**

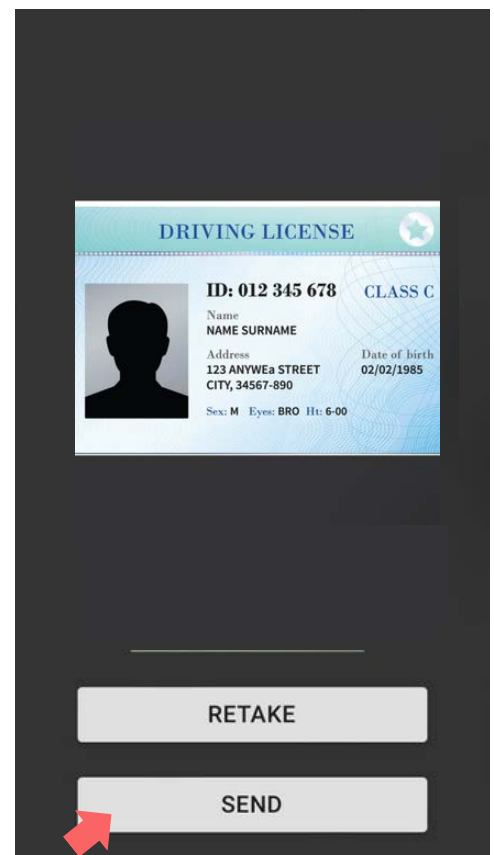

## STEP 6

If you registered for PANEEM successfully in the past, for certification you only need to take a photo of yourself as we already have your identity document on file.

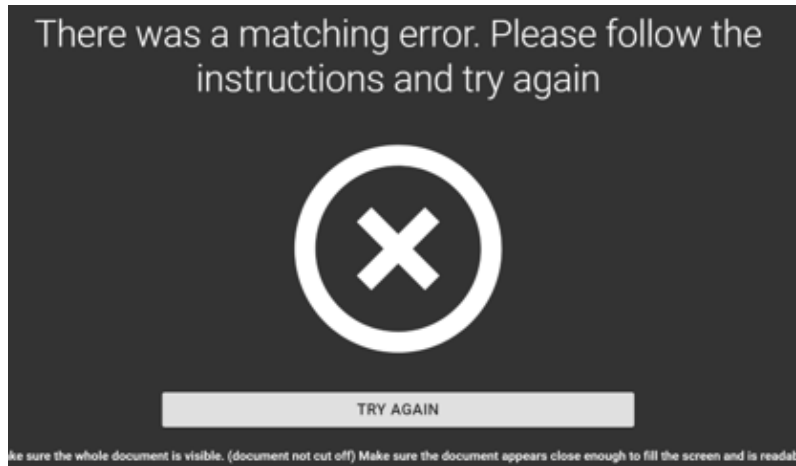

### TIPS

- Make sure the whole document appears in the frame and is being captured.
- The document must show your photograph and list your date of birth. If your date of birth only appears on the back side of the document, take a photograph first of the front and then the back side.
- Do not cover the document with your fingers.
- Lay the document on a flat surface to capture the image.
- Make sure the photo is not too dark or not too light that it can be read. Please also make sure there is no glare and the image is not blurry.
- Review the image after taking the photo. If you are not happy with the photo, click "retake" or click "submit" when you are happy with the quality of the image.
